AtlasVision X1 Multimodal Evaluation

1 Research context

Nebula Technology evaluated AtlasVision X1 at Harbor Laboratory. The fictional pilot used 500 synthetic samples and reported 94.2 percent accuracy.

2 Evidence policy

Every extracted statement must retain page and bounding-box evidence. Visual-only quantities require human review before graph submission.

Evaluation Table and Formula

Modality	Samples	Accuracy
Native text	500	88.0%
OCR	500	91.0%
VLM	500	94.2%

F1 = 2 * precision * recall / (precision + recall)
